Cookie Policy

Vs 1.0 August 2018

What are Cookies?

Cookies are small text files, given ID tags that are stored on your computer's browser directory or program data subfolders. Cookies are created when you use your browser to visit a website that uses cookies to keep track of your movements within the site, help you resume where you left off, remember your registered login, theme selection, preferences, and other customization functions.

The website stores a corresponding file (with same ID tag) to the one they set in your browser and in this file, they can track and keep information on your movements within the site and any information you may have voluntarily given while visiting the website, such as email address.

Cookies are often indispensable for websites that have huge databases, need logins, have customizable themes, other advanced features. Cookies usually don't contain much information except for the URL of the website that created the cookie, the duration of the cookie's abilities and effects, and a random number. Due to the little amount of information a cookie contains, it usually cannot be used to reveal your identity or personally identifying information.

Fondex website Cookie Types:

Session cookies

These cookies are created temporarily in your browser's subfolder while you are visiting a website. Once you leave the site, the session cookie is deleted.

Analytical Cookies

These cookies may include both temporary and persistent cookies that we use in order to determine how our website was found, the number of visits and from where the visit came from.

The information is anonymous (i.e. it cannot be used to identify you and does not contain personal information such as your name and email address) and it is only used for statistical purposes.

Functional Cookies

These cookies record and store your choices in our website in order to provide for a more seamless experience across our website.

These are saved temporarily as login information and expire once the browser is closed.

Third Party Cookies

These cookies are used by third parties and mostly by social media websites like Google+, Facebook or YouTube. These cookies are session, analytical and functional, and determine if the
